

Select button switches between the device being controlled (flashes green):

- DVD/R controls the Apple TV
- SAT controls the Virgin Media TiVo Box
- TV controls the TV
- VCR controls the Philips Blu-ray Player
- AUX controls the Philips Soundbar

Volume up-down and Mute button controls the Soundbar volume when DVD/R, SAT or TV is selected.

With TV selected, press the source button (to the left of the Select button) and then left-right wheel buttons to switch the TV between:

- HDMI1 – Virgin Media TiVo Box
- HDMI2 – Apple TV (may need to press down and then OK)
- HDMI3 – Philips Blu-ray Player
- YPbPr – Wii Console
- HDMI4 – HTL3140 (Philips Soundbar)

With DVD/R (Apple TV) selected:

- Menu button goes backward through the menus
- Wheel buttons move up-down-left-right
- OK button selects
- Plex is loaded from the Plex App

With SAT (Virgin Media TiVo Box) selected:

- Menu button brings up TV Guide
- Wheel buttons move up-down-left-right
- OK button selects
- Teletext button (3 lines in a square) brings up the Home menu
- Numbers can also be used to select channels (i.e. 108 BBC 1HD)
